VEGETINE
Purifies the Blood, Renovates and Invigorates the Whole System.
Its Medical Properties are
ALTERATIVE, TONIC, SOLVENT AND DIURETIC.
VEGETINE is made exclusively from the juices of carefully selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.
For **Ulcers** and **Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** VEGETINE has never failed to effect a permanent cure.
For **Pains in the back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhœa,** arising from internal ulceration and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon secretive organs, allays inflammation, cures ulceration and regulates the bowels.
For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness and General Prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all of the organs, and possesses a controlling power over the nervous system.
The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.
In fact, VEGETINE is the best remedy yet discovered for the above diseases, and is the only reliable **BLOOD PURIFIER** yet placed before the public.
Are not the many testimonials given for the different complaints satisfactory to any reasonable person suffering from any disease mentioned above, that they can be cured? Read the different testimonials given, and no one can doubt. In many of these cases the persons say that their pain and suffering cannot be expressed, as in cases of Scrofula, where, apparently, the whole body was one mass of corruption. If VEGETINE will relieve pain, cleanse, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? It works in the blood, in the circulating fluid. It can truly be called the Great Blood Purifier. The great source of diseases is the blood; and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention. When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the VEGETINE will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the Vegetable Kingdom are more safe, more successful in the cure of disease, than mineral medicines. VEGETINE is composed of roots, barks and herbs. It is pleasant to take, and is perfectly safe to give to an infant. Do you need it? Do not hesitate to try it. You will never regret it.

WOULD NOT BE WITHOUT
VEGETINE
FOR TEN TIMES ITS COST.
The great benefit I have received from the use of VEGETINE induces me to give my testimony in its favor. I believe it to be not only of great value for restoring the health, but a preventive of diseases peculiar to the spring and summer seasons.
I would not be without it for ten times its cost.

A Hornsey and General Agent for Massachusetts of the Continental Life Assurance Company, No. 49 Scars Building, Boston, Mass.

WEDNESDAY, SEPTEMBER 8, 1875.

DOMESTIC DIPLOMACY.

She was watching at the window,
As I hurried down the street,
In the simple brown merino
That I fancy looks so neat,
And her smile I thought portentous,
It was so exceeding sweet.

Then she met me at the threshold
With a very loving kiss,
That recalled the early stages
Of our matrimonial bliss,
And I felt at once a tremor—
Was there anything amiss?

No! The children were all quiet,
And the hearth was very bright,
And my pet—our roguish Charlie—
Was quite feetal in his white;
Yet I braced myself for something,
Do that something what it might.

My chair was near the fire
And my slippers by its side,
My pipe was very handy
And my papers open wide,
And she wore the pretty dressing
That I gave her when a bride.

The dinner was perfection—
It was lavish without waste;
The soup was vermicelli
And exactly to my taste,
While the dessert was a triumph
Of artistic skill in paste.

And when the meal was over,
And the inner man at rest,
She drew her chair beside me,
With the baby on her breast,
I felt, and so I told her,
I was one among the blest.

Oh! the smile of tender radiance
That illumined all her face,
As I clasped her to my bosom
In a lover's fond embrace—
It was then she softly whispered,
"Won't you let me have that lace?"

Graham bread is said to be excellent food for the children, on account of its superior bone giving qualities. You can feed a child on that bread until he is all bones.

A Providence policeman asked a drunken Ethiop, whom he could scarcely see in the dim light of a cell, "Are you colored?" "Colored! no, dis yer chile born so!"

However good and noble a man may be, whenever he sees a cat moving unsuspectingly along, within easy range, he will involuntarily look around for a stone.

A lady correspondent, who assumes to know how boys ought to be trained, writes as follows: "Oh, mothers! hunt out the soft, tender, genial side of your boy's nature." Mothers often do with an old shoe.

"You would be very pretty, indeed," said a gentleman patronizingly to a young lady, "if your eyes were only a little larger." "My eyes may be very small, sir, but such people as you don't fill them!"

A negro suddenly finding himself under a fire during a skirmish in the late war—prayed. This is what he prayed: "Oh Lordy! if you're eber guine to do anythin' for dis old nigger, now's your time."

A Partingtonian juryman in Vermont recently informed his fellow jurors, with great gravity, that "no external magnetism being visual, he would vote in the defensive." No attempt was made to change his decision.

A lawyer, about to finish a bill for costs, was requested by his client, a baker, to make it as light as possible. "Ah," said the lawyer, "you might properly enough say that to the foreman of your establishment, but that is not the way I make my bread."

It's an awful undertaking to go out and spark a girl half the night in Lapland, where the nights are six months long. It takes six months' forethought and much labor on the part of a young man to lay in the provisions for a single evening's courting.

Shelby (Ky.) Republican: The worst case of selfishness that we have ever been permitted to present to the public, emanated from a youth who complained because his mother put a bigger mustard plaster on his younger brother than she did on him, after they had partaken a little too freely of melons and hard apples.

A country clergyman, just recovering from the effects of a severe boil on his nose, stepped an urchin near Fort Green, yesterday, and asked him the way to the corner of Fulton and Clinton streets. THE DAY.

The great strike of mill operatives in England is at an end.

Charley Ross continues to be found in all parts of the country.

The Bank of California has not yet resumed though promises are abundant.

During most of the Summer the farmers have complained of the abundance of rain, Now a few showers would be very welcome.

The Commoner is a four page, twenty eight column paper which has just been started at Washington as the organ of the colored people. The initial number indicates that the paper will be ably conducted. Its editor is the Rev. George W. Williams. Among its contributors are Frederick Douglass, Prof. Langston, William Wells Brown, M. D., P. B. S. Pinchback and the Rev. Alexander Crummell D. D.

Our narrow minded city fathers seem determined to make this place unpopular with Summer residents. Last night they adopted ordinances extending the limits of the compact portion of the city on the east from Bellevue avenue to Rhode Island avenue, and forbidding the keeping of swine in the compact portion of the city. This is depriving residents on the east side of Bellevue avenue and on Catherine and Beach streets of a privilege they have long possessed. However, these ordinances are not to go into effect till November first by which time most of our Summer residents and their swine will have returned to the city.

As we suspected at the first, the negro insurrection in Georgia was altogether a scare. The story was gotten up by political madcaps who doubtless thought they were doing a funny thing and could make some kind of capital out of it. After heralding the dreadful facts all over the country, the ring-leader of the "rebellion" was arrested and put on trial before a white jury and an honest judge. The evidence against the poor colored man was put in, and not a word was uttered in his defence, when the jury dismissed the case as unworthy of consideration. Our Democratic friends have made a poor investment in the "bloody shirt" business this time. In fact that game on both sides is played out.

Having in an unguarded moment said something quite favorable about the moderation and good sense manifested by the white people of Georgia during and since the scare, the Providence Journal makes amends as follows:

Great commendation is bestowed upon the justice of Georgia, because, after arresting and imprisoning a few scores of ignorant negroes, charged with offences of which they were as innocent as the judges that tried them, the poor creatures were acquitted. There was no evidence against them. The accusations were not sustained by even a reasonable pretext or a suspicion. One man, the leader, we believe, who could not read or write, was accused of issuing an incendiary proclamation. No one thought of punishing the man who forged the name of the negro, but the discharge of the innocent prisoner is bruited abroad, as a wonderful instance of magnanimity, and the press rings with the praises of the judge who actually expounded the law as it was, and of the jury who, with a lofty sense of justice, did not convict an innocent man. The sheriff has been strangely overlooked in the general commendation. Nobody has praised him for his forbearance, in not hanging the negro, either before the trial or after the acquittal.

It is only natural that the readers of the Providence Journal and many other papers should be exceedingly surprised to learn that any Southern judge had "actually expounded the law as it was" and that a Southern jury "did not convict an innocent man" who was black. That a black man should have a fair trial is not what we should expect in a country inhabited mainly by banditti, and the forests of which, according to Senator Morton, are full of murdered negroes. It is hardly fair to dwell by the column on the abominations of the Southerners and sneer at them when they do an act of prompt justice. The Journal wants all the colored people of Georgia to emigrate because the disreputable white man who forged Corday Harris's name has not been brought to justice.

BEECHER RAMPANT.

There seems to be no doubt that Mr. Beecher will go to paradise when he leaves Brooklyn to its fate and Peekskill to his heirs. He says he is going to heaven and he knows more about himself than any one else does. Last Sunday he preached to his canvas roofed congregation about himself vs. the Vermont Chronicle and the Boston Congregationalist. Except that it was on Sunday that he spoke and he had a text from Scripture his speech strikingly resembled some that Ben. Butler occasionally makes when a "venal and licentious press" has been talking about him. Mr. Beecher didn't preach much Gospel, but he "went for" his editorial enemies in the most approved style of the stump speaker. He defended his mountain preaching in spite of excursion trains, and while he vigorously denounced the bigotry and meanness of the religious editors in question he declared that he could love them and pray for them. It is a difficult thing to love a man while energetically denouncing him, and to pray for our enemies is a marvelous achievement. It reminds us of the recent convert who asked the prayers of the church for herself "and particularly for them mean Smiths," a family with whom she had had a standing quarrel. After reading an especially objectionable paragraph from the Vermont Chronicle Mr. Beecher said,—

There is Christianity—a lovely instance of it. I have no answer to give that. If that man dies in the spirit of mind in which he now is I shall never meet him, but if he changes and goes to heaven the first thing he will say to me there will be:—

"I am sorry for that mean article I wrote."

There is a good deal of information in that paragraph. It appears that if anybody who has offended Mr. Beecher is so fortunate through that gentleman's prayers and the grace of God as to reach heaven he will hunt up H. W. B. and make his apologies, to which we hope H. W. B. will reply "Grace, mercy and peace." There will be no difficulty in finding Mr. Beecher. Even the Great White Throne would sink into insignificance in any place where the pastor of Plymouth church was.

The residents of the Park, desiring to make some recognition of the services of the Rev. Henry C. COUNT D'ORSAY AND THE PALETOT.—Count d'Orsay, while reigning as king of fashion in London, was overtaken by a smart shower one day while on his return from a race. He was mounted in the saddle, and accompanied by his groom, but the groom had neglected to take the overcoat which he generally carried for his master's use in cases of emergency. The force of the shower increased, and our monarch of fashion seemed likely to catch a severe cold. Close by a wayside inn he espied a sailor habited in a broad long jacket of coarse blue cloth, enveloping him comfortably from his chin to the middle of his legs. "Ho, my friend," hailed the count, "will you go into this inn and drink my health until the shower is over?" "With pleasure," returned the sailor, touching his hat respectfully. "Well, then, take off your jacket and sell it to me. You will not want it while you are in the house, and you can buy another when the storm is past." "Willingly." The sailor threw off his long jacket, for which the count gave him ten guineas, and, having put it over his frock coat, d'Orsay remounted just as the rain ceased falling, and spurred on for London. The sun had burst from behind the clouds, and it was the hour for promenading in Hyde Park, when Count d'Orsay made his appearance with the sailor's loose jacket, worn as an overcoat. "By George, isn't that original?" cried one. "Charming!" was the exclamation of another. "How airy and graceful!" echoed a host. The dandies were smitten, and within a week all the fashionable young men had similar overgarments. And such was the origin of the paletot.

IS YOUR LIFE WORTH 10 CENTS?

Sickness prevails everywhere, and everybody complains of some disease during their life. When sick, the object is to get well; we say plainly that no person in this world that is suffering with Dyspepsia, Liver Complaint and its effects, such as Indigestion, Costiveness, Sick Headache, Sour Stomach, Heart-burn, Palpitation of the Heart, Depressed Spirits, Biliousness, &c., can take Green's August Flower without getting relief and cure. If you doubt this, go to your Druggist James H. Taylor and get a Sample Bottle for 10 cents and try it. Regular size 75 cents. Two doses will relieve you.

MR. BLATCHFORD'S FUNERAL.

The funeral of the late Hon. R. M. Blatchford of New York, who died at his Summer residence on Beach street last Friday night, was solemnized at All Saints' chapel yesterday afternoon, the Rev. Dr. A. G. Mercer officiating. The remains were enclosed in a casket bearing a plate inscribed as follows:—

Richard M. Blatchford.
Born April 23, 1798,
Died September 3, 1875.

The following well known gentlemen were bearers: The Hon. William M. Evarts, Moses H. Grinnell, George Bancroft, Sidney Brooks, George C. Mason, Charles H. Russell, Richard M. Hunt, Hamilton Hoppin, William H. Ashhurst and Nicholas F. Palmer, president of the Leather Manufacturers' National Bank of New York, of which the deceased was for many years a useful director.

The chapel was about two thirds full and the services were of a very impressive character. A select choir with Prof. Wilson at the organ, sung several selections in a beautiful manner. Among the numerous tributes sent by the friends of the deceased was a pillow, composed of tea roses in the centre of which was a cross of forget-me-nots, on a bed of solid white pinks. It was made by Messrs. Smith and Butler and was ordered by the well known law firm of Blatchford, Seward, Griswold & Da Costa, of New York, of which the deceased was the founder. The following were among the prominent persons present: W. M. Beach, Judge Sedgwick, Frederick A. Seward, the Hon. Clarkson N. Potter, M. C., B. W. Griswold, C. M. Da Costa, the Hon. Levi P. Morton, Royal Phelps, all from New York: Charles Scudder and Samuel Scudder of Boston. Thurlow Weed was expected but he was prevented from coming by sickness.

The funeral procession was very long and the remains were taken to Island cemetery and placed in the vault where they will remain until cold weather.

The Paris prefect of the police, in order to promote public safety, has forbidden the driving in Paris of four horse teams or tandems, unless the coachman is provided with a certificate indicating that he has the necessary ability.

Of the committee on streets and highways recommending to pay Charles H. Langley and John J. Stacy $83 and $50 respectively for damage caused by overflow of sewers; to appropriate $100 for additional drain pipe for the drain in Bacheller's court, and to appropriate $100 to complete laying the same; that the course of the main drain from Beach street to Bath road be changed from Tew's court to Sunnyside court and lands of George C. Mason and others; that the $83 paid to Charles H. Langley be collected of the Newport Gaslight Company.

Resolutions in accordance with all these recommendations were adopted.

The committee on gas and lamps reported in favor of a lamp on Ann street and one on Prospect Hill street, and resolutions in accordance were adopted.

The inspector of nuisances reported that fifty one nuisances had been complained of, of which all had been abated except one "which I have to watch it."

The special committee consisting of Alderman Brown and Councilmen Stoddard and Reynolds appointed to consider William J. Swinburne's claim of $300 against the city for dredging rendered necessary by deposits from a sewer, reported that the claim be disallowed as the work had been done at the head of the wharf while the nuisance complained of was the filling up of the dock. The committee recommended that the dock be dredged out at an expense not exceeding $100. It was found by referring to Mr. Swinburne's original petition for redress that he alleges the filling up to have extended to the head of the wharf, so that his claim for $300 is not a new one, but he has brought suit against the city for heavy damages, and on the advice of the city solicitor the resolution to dredge the dock, which the aldermen had adopted, was laid on the table in the common council.

Finance report No. 3 was presented and bills amounting to $26,291.25 were ordered paid. The principal footings are as follows:—

Fire Department	$2453 89
Repairs on steamers	1502 92
Salaries	1903.81
Paupers	167.65

Petitions Presented.

Of Julia Bailey and Mary S. Bailey for remission of portions of their city taxes. Referred to the assessors of taxes.

Of Edward Mayer and others for a lamp at the corner of Second and Pine streets. Referred to the committee on gas and lamps.

Of George W. Howard and others for a lamp at the corner of Annandale and Retirement roads. Referred as above.

Of James Burkinshaw and others for a cross walk on Thames street at the foot of Howard street. Granted.

Of Carl Hertgen for permission to put a swinging sign on the Bellevue Avenue Hotel. The board of aldermen voted the petitioner leave to withdraw. The common council non-concurred and referred it to the committee on highways with power to act.

Of the public school committee for permission to enter the sewer in Mill street. Repassed by the board of aldermen.

Of T. M. Seabury and others for a lamp on Ferry wharf. Referred to the committee on gas and lamps.

Resolutions Adopted.

To erect a hydrant at Elm and Washington streets to take salt water, provided the expenses do not exceed $100.

To paint the walls of the common council chamber at an expense not exceeding $75.

Forbidding the street commissioner selling flag and curb stone to private parties. The board of aldermen adopted it, but the common council non-concurred.

Directing the committee on city property to ascertain the cost, by advertising for proposals, of erecting a granite wall around the city's wharf property at Gravelly point.

Directing the street commissioner to clear away all garbage and rubbish from Easton's beach, and to put up a sign board there forbidding the depositing of any more refuse.

Appointing Aldermen Weaver and Langley and Councilmen Stoddard, Green and Titus a committee to confer with our citizens relative to receiving Admiral Wellesley of H. M. S. Bellerophon.

Communications Received.

From William F. Channing, trustee of the heirs of Mary Gibbs, relative to the protection and preservation of Easton's beach. This sets forth that the owners of the Middletown end are willing to put the property under the state laws; that in this way the beach can be protected from sand stealers, and depositors of rubbish, etc. Mr. Channing wished the city council to join the Middletown owners in putting the beach under state control. The city solicitor explained that the action now asked of the council was taken by the city council two years ago, but the act asked for was defeated in the General Assembly. The common council laid the communication on the table.

The contract with the Globe Gaslight Co., of Boston was read and approved. The company is to light not less than fifty lamps, twenty nights in the month, from twilight till midnight, for $1.50 each lamp each month.

THE FIRE ALARM TELEGRAPH.

A communication was received from the board of firewards recommending that a fire alarm telegraph be erected, the apparatus to consist of two large bell strikers, four alarm boxes and wire to connect them in one circuit, the expense to be $3000, of which $2000 shall be taken from the appropriation of the fire department, and $1000 shall be a special appropriation.

This proposition gave rise to an animated discussion in which the merits and demerits of the alarm telegraph were not so freely canvassed as the alleged underhandedness of the means by which the money for it was to be obtained. In the common council Mr. Cranston considered the alarm useless in a 7x9 town, and noticed that the more systematic a fire department was, and the more complete was its apparatus, the more frequent were fires. Resolutions to appropriate $1000 for a fire alarm telegraph and authorizing the firewards to add $2000 to that sum from their own appropriation were finally passed. In the common council the yeas and nays were called for with the following result:—

YEAS.—Weaver, Peckham, Case, Reynolds, Green, Titus,—6.

NAYS.—Stoddard, Cranston,—2.

Ordinances Introduced.

Mr. Green introduced an ordinance prescribing the limits of the "compact portion" of the city. These limits begin at the place where Battery street joins the water, thence east to Third street, south to Walnut, east to Farewell, southeast to Warner, northeast to Gould, southeast across Broadway and down Cranston avenue, to Kay, northeast to Rhode Island avenue, south to Beach avenue or Bath road, west to Annandale road, south to Narragansett avenue across Thames street to Berkley street, north to Wellington avenue, and west to the water, thence along the harbor line to the starting point.

The same gentleman introduced an ordinance forbidding the keeping of swine in the compact part of the city after November 1, under a penalty of not less than $5 nor more than $20. Both of the ordinances were referred to the committee on ordinances.

Elected and Discharged.

In convention, on recommendation of the board of firewards the following persons were elected members of the fire department: Benjamin Sweet to No. 3, Michael Killian and William M. Congdon to No. 4, Thomas Cassidy to No. 6 in place of Hugh Murray, and Daniel Sullivan to the same in place of John Harrington, and James Campbell to the same as steward.

The question of reinstalling or discharging David Case, police officer, was called up in convention. City Marshal Simmons, Captain Hammond, and the accused stated their cases at the bar of the council chamber. On the night of August 19th Captain Hammond detailed several officers, among them Case, to report the next morning to the city marshal on Washington square. Case did not do it though called the next morning in season. Case denied none of the facts, but claimed that the night officers were on duty for eleven hours five nights in the week; that that was his night "in"; that Captain Hammond abused all the men, selecting him more particularly as the victim of his malice. City Marshal Simmons gave Case a very bad character, and Capt. Hammond denied any malice or partiality. After the two boards separated they adopted in concurrence a resolution discharging David Case from the police force.

Jurors.

The following persons were drawn by the board of aldermen for the September term of the supreme court:

Grand.—John King, John M. Taylor, Stephen A. Hopkins, T. Mumford Seabury, William C. Townsend, Jr.; Albert K. Sherman.

Petit.—George C. Kaull, Jr., Thomas S. Burdick, Joseph G. Higgins, Charles G. Muenchinger, Micah W. Spencer, William H. Lawton, P. Arnold Underwood, William H. Bateman, Capt. Michael E. Peckham.

The council adjourned till the first Tuesday evening of October at halfpast seven o'clock.

MARRIED.

ASH—CARLISLE.—In this city 7th inst., by Rev. W. F. Whitcher, Charles E. Ash to Miss Lucinda H. Carlisle, both of Newport.

DIED.

LANGLEY.—In this city 7th inst., Harry Richmond, son of Benj. A., and Jennie Langley, aged 2 years, 3 months and 8 days.
The funeral will take place from their residence on Marsh Court, tomorrow (Thursday) afternoon at 2 o'clock. Relatives and friends are respectfully invited to attend.

The Philosophy of Disease.

The philosophy of disease is a subject which is well worthy the attention of mankind, but is, unfortunately, more generally neglected than any other under heaven. Decidedly the most important fact that an examination of it discloses is that, in nine cases out of ten, the originating cause of disease is debility, either general or local, and that the earliest manifestations of its approach are identical with those which evidence a lack of vital power. Such being the case, it is perfectly clear that tonic treatment is what is required in the first instance. As an invigorant, Hostetter's Stomach Bitters has received the most positive indorsement from eminent physicians, and has long occupied a foremost rank among standard proprietary remedies. Its properties as an alterative of disordered conditions of the stomach, liver and bowels, and a preventive of malarial diseases are no less renowned, and have been accorded professional recommendation equally emphatic. sept7-1w-n&j

SCHENCK'S PULMONIC SYRUP, FOR THE CURE OF CONSUMPTION, COUGHS, AND COLDS.

The great virtue of this medicine is that it ripens the matter and throws it out of the system, purifies the blood, and thus effects a cure.

SCHENCK'S SEA WEED TONIC, FOR THE CURE OF DYSPEPSIA, INDIGESTION, &C.

The Tonic produces a healthy action of the stomach, creating an appetite, forming chyle, and curing the most obstinate cases of Indigestion.

SCHENCK'S MANDRAKE PILLS, FOR THE CURE OF LIVER COMPLAINT, &C.

These pills are alterative, and produce a healthy action of the liver without the least danger, as they are free from calomel, and yet more efficacious in restoring a healthy action of the liver.

These remedies are a certain cure for Consumption, as the Pulmonic Syrup ripens the matter and purifies the blood. The Mandrake Pills act upon the liver, create a healthy bile, and remove all diseases of the liver, often a cause of Consumption. The Sea Weed Tonic gives tone and strength to the stomach, makes a good digestion, and enables the organs to form good blood; and thus creates a healthy circulation of healthy blood. The combined action of these medicines, as thus explained, will cure every case of Consumption, if taken in time, and the use of the medicine preserved in.

GENERAL NEWS.

FROM NEW YORK.

Reported Inefficient Management of the Boston Post Office.

New York, Sept. 7.

A Washington dispatch to the Tribune says that the Boston Post Office is referred to by the highest officers in the department, who have made examinations extending over the period of many months, as being the worst managed office in the country. There is no want of testimony to establish this charge, and this testimony is represented to be within the knowledge of the Postmaster-General. So far as known, no other charge except that of incompetency and negligence is made. Mr. Jewell says that so far as Mr. Burt's immediate relations with the Department are concerned, Gen. Burt performs his duty, but further than that he has nothing to say.

The Clinton, Miss., Disturbance.

In connection with the troubles at Clinton, the Attorney General has telegraphed to the District Attorney and United States Marshal, at Jackson, Miss., to do all in their power to preserve order, but as there has been no call from the United States authorities for assistance, no further directions have been given.

SAN FRANCISCO, Sept. 7.

An extensive Indian outbrake is reported in eastern Nevada and western Utah. A number of settlers and miners were killed. The women and children are being removed to places of safety. Troops and volunteers are going to the scene. The military commander at this city has been asked for arms and ammunition. Orders have been issued for the infantry and calvary to proceed at once from this city and Benicia to eastern Nevada. The rising is attributed to Mormon influences.

NEW FUEL,
PREPARED COKE.

BROKEN TO STOVE SIZE AND CAREFULLY SCREENED.

A Chaldron contains

20 PER CENT.

more fuel than the same measure of common coke.

Prepared coke is ready to hand for a quick fire in the morning, or to hurry a sluggish fire. For kindling fires it is nearly equal to charcoal; and for a bright intense fire for broiling it is quite equal to the latter.

All trouble of breaking up coke and the consequent loss, and accumulation of dust is avoided by the use of prepared coke.

In order to introduce this new and convenient fuel, we shall offer it for the present at

$5.00 PER CHALDRON

of 36 bushels delivered.

At this price, by reason of the compactness in measuring, and the saving in labor and loss by breaking, the prepared coke is cheaper than the unbroken.

For furnaces, grates, boilers &c., the unbroken coke at

$4.00 PER CHALDRON

is a cheap and convenient fuel.

Cash orders will receive prompt attention at the

Gas Lt. Co's Office,
113 Thames Street.

Newport Daily News.

WEDNESDAY, SEPTEMBER 8, 1875.

A story told by Horace Smith is a good instance of a shock given to affected elegance. A town lady had read much of pastoral life, and once made a visit to the country for the purpose of communing with a real shepherd. She at last discovered one, and his crook in his hand, his dog by his side, and the sheep disposed romantically around him, but he was without the indispensable musical accompaniment of all poetic shepherds, the pastoral reed. "Ah gentle shepherd," softly inquired she, "tell me, where's your pipe?" The bumpkin scratched his head and murmured, brokenly: "I left it at home, miss, cause I han't got no'baccy.

It takes a woman to repulse a traveling agent sometimes. In a neighboring village, the other day, a man called on Mr. C. at his place of business and wanted to sell him a parlor organ. Mr. C. not wishing to buy, to get rid of him, referred him to his wife. On the man's making his business known to the lady, she asked him if Mr. C. sent him to her. "Yes, ma'am," he replied. "Well, sir said Mrs. C., "you just go back and tell him that until he can furnish me with something besides mackerel to eat, I can make all the music that is necessary around this house." The agent concluded he couldn't sell an organ there.

PALACE HOTEL,
SAN FRANCISCO.
Summer and Winter Resort.

The thermometer at San Francisco ranging in Summer from 60 to 70 degrees Fahrenheit, and in Winter from 50 to 60, the climate is of the most salubrious character, giving to travellers a most cheering welcome at any season that they may arrive.

PALACE HOTEL,

350x275 feet, covers 96,250 square feet of land, making it the

Most Spacious Hotel in the World.

Its commodious and elegant character is assured by the fact that, in the inception of the enterprise, the owners, WILLIAM C. RALSTON, Esq., and Hon. WILLIAM SHARON, instructed their architect to visit the hotels of the principal cities in the United States and Europe for the express purpose of including in the plans of the PALACE all existing improvements, and such additional ones that experience and observation had suggested, they desiring it to be a

Palatial Hotel in Every Respect.

The location is THE BEST IN THE CITY, being at the junction of the

Main Thoroughfares.

The PALACE is seven stories high, most substantially built, and

Fire-proof in all Essential Points.

The lower story is 25 feet high, the others 14 and 16 feet.
All walls and petitions throughout the Hotel are built of Stone and Brick, laid in Cement, and banded together with Iron.

There are Three Inner Courts,

the centre one being 144x84, covered with glass at height of building, with Carriage and Promenade Entrance from the street of 44 feet width, and having a Circle Driveway of 64 feet diameter, that being surrounded by a marble-tiled Promenade and a

Tropical Garden,

Having Exotic Plants,

Statuary, and Fountains.

Fronting the Centre Court from every story, and upon its entire boundary, there are

Verandas, 12 feet wide, Illuminated by Standard Lights

at each pillared section, and from the Garden Level to the Veranda of the second floor is an Elegant Staircase, ornamented at its various landings with Statuary and Flower Vases. Midway up this staircase is the approach to the

Music Pavilion for the use of the Instrumental Band

(to be exclusively employed in the Hotel.)
From the Centre Court is the Main Entrance to the Hotel Office, that room being 65x65, as also entrance to

Breakfast Room, 110x55;

Dining-Room, 150x55;

Ball and Music Room, 65x55;

Ladies' Reception Room, 40x40;

Reading Room, 40x40;

Committee Rooms,

and other general apartments, used in common by hotel patrons, all these rooms having other convenient entrances.
On Second Floor are

Ladies' Drawing Room, 51x40; Children's Dining Hall and Private Dining Rooms,

The rooms for guests are equally well finished and furnished, and arranged for use, either singly or in suites of two or more, they being so approached and connected that a suite of any number can be had, possessing

All the Advantages of a Private Dwelling.

All Outer Rooms have a Bay Window, and every room a Fire-place, a Clothes-closet, and Toilet Room, and to every two rooms there is a

Bath Room.

The total number of rooms in the PALACE, above the Garden Floor, exclusively for the use of guests—most of them being 20 feet square, and none of less size than 16x16—are 755.
Each floor has its

Own Annunciator

with its special service in constant attendance, also a tube receptacle for

Letters for Post-Office,

all leading to the main Letter Box in the General Office. There is a

Pneumatic Dispatch Tube,

by which messages and parcels can be instantaneously sent to any point on the different floors.
All the rooms have approach or entrance from the Arcades, furnished by the existence of the three Inner Courts, thereby giving to all interior rooms

Fresh Air and Sunlight.

The system of Ventilation applied to all the rooms, including the Bath and Toilet rooms, is perfect, there being a total number of 2,042 Ventilating tubes opening outward on the roof of the Hotel, each one coming from some particular room or closet. And for each room there is special provision made to admit the fresh air.

Upon the Garden Floor of the Palace there is an Arcade Promenade,

12 feet wide, with entrances to all of the stores under the Hotel, each one having a Show Window upon the Promenade.

The Palace Hotel is Elegantly Furnished,

equally well upon every floor, and is complete in extent of detail as the comfort of patrons can desire. In addition to being Fire-proof, as mentioned, the arrangement for protection against fire is perfect, the Hotel having

Four Artesian Wells,

a Reservoir under the garden plot—holding capacity being 630,000 gallons—Steam Engines, Steam Pumps, and a supply of 14,570 feet of hose, which, with

Fire Apparatus Complete,

is located at convenient stations upon each floor of the building.
In every room and passageway throughout the Hotel there is a thermostatic bulb, by which an extra degree of heat existing will be announced at the general office, upon a dial, stating the exact locality, making thereby a

Complete Fire Alarm Guard.

The Watchman's Tell-tale Indicator,

in the office, faithfully reports the intervals of the watchman upon his regular rounds, both day and night, and in other respects indicate the method and manner of his attention to duty.

There are Five Elevators and Seven Stairways

leading from Garden Floor to the Upper Story. There is a Solid Iron Staircase, enclosed by brick, which leads from basement to upper story, having openings only on each floor.
The Elevators are worked by Hydraulic Power, and while the most desirable speed is attained they are securely safe and noiseless, and in every way free from all the objections that have heretofore prevailed with similar conveyances.

The Salubrious and Equable Character of the Climate,

(the thermometer at San Francisco, in Summer, ranging from 60 to 70 degrees Fahrenheit, and in Winter from 50 to 60 degrees,) extend such an inviting welcome to travellers, that every endeavor has been made to have the PALACE fully harmonize with it in its attractive features, by combining the comforts and conveniences of American and European hotels, with the greatly prized luxuries of Oriental life.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
